### Sticky Notes Crack

No matter what you need your computer for, there will be some time when you're not actively using it. Maybe you want to do something else or maybe your phone needs your attention. Regardless of what it is, it's not unusual to have the need to take quick notes, jot down reminders or quickly capture something important. Sticky Notes is a quick, lightweight notes application, developed to help you do just that. It offers a simple yet feature-rich interface, along with an extended selection of customizable options that can be adjusted as needed. Fully customizable With Sticky Notes, you can specify where to place and how to customize your notes: whether they should be aligned to the left or right side of the screen, you can change the font, highlight the current note and even adjust the total note count. To make sure you can always find the notes that you need, Sticky Notes stores them in folders according to location and/or date. In addition, notes can have notes of their own, with a Note Book function being included. Save the day If you're too busy right now or your phone is in need of your attention, it's no surprise that Sticky Notes is the perfect tool for capturing small ideas, snippets of information or more detailed ideas and doings. ## Sticky Notes

Sticky Notes enables you to create and edit note lists in a variety of styles. Additional features include the ability to use sticky notes as text boxes, or labels, icons, shapes, clip art and more, and the text formatting options. Sticky notes also include several options for previewing and editing your notes. When you create a new sticky note, you are presented with options for typing the text, selecting an image, or pasting a variety of existing clip art. The support for image files is very useful as you can use multiple images, a feature not found in other applications that have the ability to create sticky notes. The user interface is similar to Microsoft's notepad. There is an icon at the upper left corner. Clicking it brings up various options depending on what category the sticky note is in. One area is for drag and drop operations. Just drag items from the Windows Explorer window and drop them on the sticky note in order to create a new note with it. Other buttons include Undo, Redo, Add Note, Move To, Move To New Note, and About. You can move notes, copy them, remove notes, cut them and paste them with the menu buttons. When a note is highlighted, you can use the mouse to draw shapes on it, format text and adjust the color, background and font style of the text. You can select the text to display in a format similar to Word Pad. You can also copy or cut the text, duplicate it, move it, or change the background color. The text that is pasted from Word Pad or another program can be formatted with no problem with all the features available to stickies.

Sticky Notes Features: Sticky Notes is a Windows XP program that you install on your computer. It requires Microsoft.NET Framework 2.0 or higher to operate. This program is not preinstalled on any version of Windows. If it isn't available on your computer, you may obtain it from the Microsoft website. The program runs without any installation and there is no user interface. It is a command line application that you need to run from a command prompt window. This program is designed to run only on computers with Windows XP Service Pack 2 or higher. You can add a new note with the right-click menu option. The program also supports dragging and dropping windows, files and folders from the Windows Explorer window. The program allows you to move, copy, cut, paste or duplicate sticky notes. You can also
